

Hi

 My name is Gaurav Vashistha

=====

=====

Agentic AI Engineer | Building Multi-Modal Systems & Automation

About Me

Hi! I'm Gaurav Vashistha, a CS/AI Graduate pivoting to **Agentic AI Engineering**. I specialize in building autonomous multi-agent workflows and RAG systems using **Llama 3.2 Vision**, **Groq**, and **Pinecone**.

Formerly a Digital Catalog Specialist, I now focus on translating business requirements into deployed AI solutions. My passion lies in orchestrating complex enterprise workflows using **n8n** and **Docker**.

- * 🌎 I'm based in **Noida, UP**
- * 📧 Contact me at
gaurav.vashistha09@gmail.com
- * 🧠 I'm currently building **MerchFlow AI** and exploring **Agentic Workflows**
- * 🤝 Open to collaborations on **GenAI, RAG, and Automation projects**

🔧 Tech Stack & Tools

AI & GenAI:

### ### 🚀 Featured Projects

#### #### 🤖 \*\*MerchFlow AI (Open Source Enterprise Edition)\*\*

- \*A Multi-Agent system automating e-commerce listings from product images.\*
- \*\*Tech:\*\* Python, Llama 3.2 Vision, Groq, n8n, Docker, Hugging Face Spaces.
- \*\*Architecture:\*\* Sequential three-agent system (Visual Analyst, SEO Brain, Copywriter).
- \*\*Highlights:\*\* Zero-config "always-on" deployment and low-latency image analysis.

#### #### 🎤 \*\*Jarvis - Voice-Activated Assistant\*\*

- \*Advanced virtual assistant for hands-free operation and automation.\*
- \*\*Tech:\*\* Python, OpenAI API, Speech Recognition.
- \*\*Features:\*\* Real-time news delivery, ambient noise adjustment, and automated web navigation.
